Testimonial

“My experience as a participant of the Certified Credit Professional Programme has been most rewarding. There is a tremendous relevance to my job as a credit professional and I am more adept for having enrolled on the course.

The delivery of the program through self-study, E-Learning and Face-to-Face Workshops was highly effective. One striking benefit was the delivery mode which allowed access to the lectures via the internet at home or away. The interactive forum gave rise to more discussion as participants from varied territories shared their knowledge and lending experiences.

I have no hesitation in recommending this program to others who are interested in self-development and want a professional accreditation in lending”.
