OPERATIONAL RISK MANAGEMENT

May 8- 9, 2018

8:30 am-4:30pm

Hotel Four Seasons

18 Ruthven Road
[www.http://jifsjm.org](http://www.jifsjm.org)

Facilitator : Arthur Dania

Mr. Arthur Dania is considered the regional expert when it comes to the history, details and hands-on knowledge of Base I, II and III guidelines. With over 18 years of experience in the field, Mr. Dania has held advisory roles, leading Base I implementation for banks in Europe, the United States and the Caribbean. Some of the financial institutions

Mr. Dania has a bachelor's degree in Management Economics and Law, along with an International Certificate in Banking Risk and Regulation (ICBRR) from the Global Association of Risk Professionals (GARP).

Currently, Mr. Dania is managing Partner at RISC (Risk Intelligence Solutions & Consultancy), a firm that provides Regulatory Reporting, Finance and Risk Management Advisory Services, training and practical solutions to Financial Institutions

Course Description :

The Global financial crisis of 2007/2008, accentuated the responsibility of financial institutions to manage their risk. In the wake of the spectacular, unprecedented and fundamental transformation of the global financial infrastructure, the responsibility of risk managers has changed. At financial institutions worldwide, banks and regulators increasingly rely on the skills, knowledge and integrity of their risk managers to pilot the transformation of the financial system as it becomes more risk aware with improved risk management policies, practices and systems.

This 2 day Operational Risk Manager training offers a qualitative introduction to Operational Risk, Operational Risk Management and the most common globally applied operational risk guideline and models.

Target Audience

This interactive two-day workshop is designed for anyone involved in the development of their business. If you contribute to the business' operational success, then you must attend.

Attend if you fall into any of these categories:

- Finance
- Regulatory Reporting
- Risk Management
- Compliance officer
- Manager

Workshop Description

The goal of this training is to ensure the development of deep understanding of Operational Risk. That includes the basic understanding of Operation Risk, risk assessment, risk measurement, modeling and the management of Operational Risk.
