Testimonial

I attended The Jamaica Institute of Financial Services (JIFS) and participated in the Certified International Risk Manager program in April - November 2014. The lecturers provided the latest analogy and best practices in risk management which was evident as they were all qualified with years of experience in the individual modules taught under CIRM. They used concepts through stories and cases that truly resonate what really happens in the real world and how to deal with uncertainty by mitigating or using risk as an opportunity. The step by step methodologies, tools and processes used helped us to have a better understanding of risk management on a global level.

The program allowed me the opportunity to gain the expertise to meet the challenges of today's difficult economy by providing with practical tools and techniques that I immediately apply to my job. I am delighted to recommend the Certified International Risk Manager (CIRM) for anyone interested in this profession or for additional knowledge.
